## Exhibit examines cultural role of Chinese restaurants

Montreal native Karen Tam's "Orientially Yours" installation opened Saturday night on the second floor of the Southern Alberta Art Gallery. The exhibit examines how restaurants mirror the constructed identity of Chinese immigrant culture nationwide. "When you walk into a Chinese restaurant, you just think about the food but there is much more than that," said Tam, who is seen at bottom centre with a video camera. The exhibit will be on display through June 10.
